VOL. 52 — No. 76

Hancock County Quota \$342,000 In 3rd War Bond Drive

Third War Loan Drive Begins September 9th and Ends
September 30th—W. Scott Morrill, County Loan Drive
Chairman—Mrs. Roger Boh, Special Activities,
Chairman

The Executive Committee of the War Finance Committee held its organization meeting on Thursday morning at the Courthouse.

Mr. W. Scott Morrill of Bay St. Louis was named War Bond Drive Chairman, and Mrs. Roger M. Boh, Chairman of the Women's Committee, Workers have been asked to volunteer throughout the county and letters are being sent out relative to a meeting to be held on Tuesday evening, September 7, 1943, at the Courthouse at 3:00 o'clock P. M. to all the workers throughout the county.

It is the plan of the War Finance Committee to contact every prospect for the purchase of bonds, and it is necessary that the services of many volunteer workers be secured. May we ask that if you are interested in helping your country to carry on the war effort, and even if you have not already been asked to volunteer your services, won't you please do so. It may be possible for you to sell many bonds, and in doing this you will be rendering a service to your country. It is impossible for the committee to know all who may give their services, and some good workers may be overlooked. Take it upon yourself and do not wait to be asked to do the job, but offer your services.

The drive will start Thursday morning, Sept. 9th and will continue through September 30th, unless the quota is raised earlier. It is the plan of the committee to exert every effort to raise the amount of \$342,000.00 in as short a time as possible.

The government is asking that individuals, even though they are subscribing to a payroll plan in the industries in which they work, also subscribe to additional bonds in this drive.

We should realize that we are not giving our money away, but are simply making a good investment, and we should realize that by putting our money in war bonds, we are saving for a later day.

The central office of the War Bond Committee will be maintained at the Courthouse in the office now occupied by the Civilian Defense. A booth will be maintained for the sale of bonds on the beach front in Bay St. Louis, and bonds may be purchased at the Postoffice of Bay St. Louis, the Peoples Federal Savings and Loan Association, and the A. & G. Theater. You may also contact either the Hancock Bank, or the Merchants Bank at Bay St. Louis, and they will in turn secure your bonds for you.

Workers will contact individuals throughout the county and will assist them in the purchase of their bonds.

The following is the list of the County Committee: A. G. Favre, County Director; W. S. Morrill, War Bond Drive Chairman; Mrs. Roger Boh, Special Activities Chairman.

EDMUND JOHNSTON GIVES ACCOUNT OF HIS BATTLE EXPERIENCES

Attributing his escape from death to God, 21 year old Edmund Johnston gives a thrilling account of his experiences in the many battles he was in in the three years he has been away from his home. First class aviation machinist's mate aboard the aircraft carrier Enterprise Johnston said that it had not been for bad weather the Enterprise would have been securely docked at Pearl Harbor and then it would have been a different story.

The Enterprise pulled in on the night of December 8 and was the first ship to reach there after the attack. They found grown men weeping because they were so enraged over what had happened and felt so helpless about it all.

They greeted the crew with the question as to where they had been and from then on their luck seemed to hold. Some of the men felt that it was because before each attack a rainbow spanned the sky.

Johnston who helped land the Marines on Wake Island, battled the Jap fleet a few hundred miles out of Tokyo and participated in attacks on Wake, Marcus, Marshall and Gilbert and Wake Islands admitted to having picked off a few planes personally when he helped man the guns on the carrier. He modestly said that every one else got some too.

Across his chest he wears a presidential unit citation with a blue star an Asiatic-Pacific campaign ribbon with two silver stars, meaning ten major engagements, a good conduct ribbon and American defense and American theater of operations ribbons.

He experienced his first "close one" when the dive bombers attacked the carrier near the Stewart and Santa Cruz Islands and because it was the first he did not experience fear as he did not realize the danger but when the second came he began to pray.

The crew was treated well and even had a soda fountain on the boat and always had plenty to eat. They lacked beer and one sailor paid \$5.00 for a 10 cent glass of beer.

"They did not have much liberty but they were too busy to use it and experienced many hardships together. When the Hornet launched her planes for the famous Tokyo raid the Enterprise helped wipe out the small fleet that they found several hundred miles out of Tokyo.

During the battle of Midway the Enterprise was credited with having helped sink five carriers.

Before being assigned to the Enterprise, Johnston was stationed on New Caledonia Island. At one time he had to walk five miles every day to take a bath. But with true American fortitude he walked each night for two weeks.

He is the son of Mr. and Mrs. George Johnston of this city.

PRESIDENT ISSUES APPEAL

To "Back The Attack" of Fighting Men in Third War Loan Drive

President Franklin D. Roosevelt, Commander in Chief of the United States, has issued a Third War Loan appeal to every citizen of the United States, to "Back the Attack" of our fighting men. President Roosevelt has called upon all Americans to sacrifice more than ever before with tremendous war bond purchases, in order to reach the national 15-billion dollar Third War Loan goal, between September 9-30. Mississippi's quota is \$3-million dollars, or only two and three-fourths per cent of the national objective.

The President pointed out that offensive warfare and invading enemy territory, calls for greater amounts of money than any nation has ever asked from its citizens in history. In providing the best fighting materials, the need of money will continue to grow until the day Victory is won.

The President earnestly appeals to every red-blooded, patriotic, American in his official proclamation "As Commander-in-Chief, I hereby invoke every citizen to give all possible aid and support to this Third War Loan Drive, not only so that our financial goal may be reached, but to encourage and inspire those of our husbands and fathers and sons who are under fire on a dozen fronts all over the world. It is my earnest hope that every American will realize that in buying War Bonds in this Third War Loan he has an opportunity to express voluntarily and under the guidance of his conscience, the extent to which he will "back the attack."

Confident that Hancock County will respond to President Roosevelt's call to arms on the home front and meet its Third War Loan quota of \$342,000, County Director A. G. Favre pointed out that, "while this quota is high, every man, woman and child in the county can 'back the attack' with their dollars and dimes to put the county over the top early in the month."

"GRANDPA"

If anyone is wondering why that broad grin on assistant Postmaster Henry Capdepon's face it is because since Sunday he has been a Grandpa. Chief Warrant Officer William L. Higgins and Mrs. Higgins announce the birth of a daughter at the Kessler Field Hospital on Sunday, August 29. The young lady tipped the scales at 7 pounds and 15 ounces. Her mother is the former Miss Elsie Mae Capdepon and her mother Mrs. Capdepon is taking the honor of being a grandmother in a very dignified manner. Grand Pa is playing a double role of trying to keep his youthful manner and at the same time reminding his friends that he is a grandfather.

Well the Echo extends congratulations and best wishes for a happy life and a long one to Miss Higgins and hopes the accommodating assistant postmaster won't get our mail mixed up in his celebrating of his grandchild.

PULPWOOD CUTTING ESSENTIAL McNUTT ADVISES COMMITTEE

War Manpower Commissioner Paul V. McNutt today clarified the attitude of the War Manpower Commission as to the essentiality of pulpwood production in a statement to the Newspaper Pulpwood Committee.

"Pulpwood is an essential war material," he said, "used among other things for making rayon parachutes, shipping containers and smokeless powder."

"Its many wartime uses have created a shortage which is rapidly becoming acute. With these conditions in mind, the War Manpower Commission has recently classified pulpwood cutting and production of pulp as essential war occupations."

"May I urge every man engaged in this essential work, either part or full time, to give it the best he has in him. Let him remember he is wielding his axe and saw in the same struggle and to the same end that other men are welding bayonets and machine guns."

"I know that the men who work in the forests and pulp mills and the farmers who cut pulpwood from their woodlots are just as patriotic and loyal as any other group of Americans. Now that they realize the importance of their part in the war, I am sure they will respond with the extra hours, extra days and extra effort that is the only possible answer to this dangerous shortage."

Pulpwood cutting is now on a revised list of essential activities and has been so specified in a bulletin on forestry, logging and lumbering sent to the local selective service boards by the W.M.C. The cutting of wood, including pulpwood, also is included among the essential farm products listed by the selective Service as a guide to local boards in the deferment of registrants engaged in agriculture.

The Christmas shopping season is here—even though the weather is still warm.

The Post Office Department advises that mailing of gifts for Army and Navy personnel overseas must begin by September 15, if many of the men and women in our armed services are not to be disappointed, and September 15 is less than two weeks away.

Christmas gifts may be mailed by parcel post to Army men and women overseas only between September 15 and October 15. After the latter date, such parcels may not be mailed unless a written request from the soldier for the article is presented with each parcel. No soldier should have to ASK for a Christmas gift; so its must be mailed on time. The Navy also urges that gifts be mailed before September 15 and October 15.

The reasons for the early mailing dates are: The vast distances that the parcels must travel to reach our men at war fronts and stations of thousands of men from one location to another, which means forwarding of the mail and consumes additional time; the necessity for giving preference to reinforcements, arms, munitions, medicine and food in shipment of shipping space, which of course means that the shipments of gifts must wait. And it is most urgent that gifts be delivered to the men IN TIME FOR CHRISTMAS, to keep their spirit high.

It is not the purpose of the Post office Department to discourage mailing of Christmas packages to members of the Armed forces overseas, but rather to encourage it, and by requesting that Christmas packages be mailed within the specified dates mentioned herein, they are offering greater assurance of these parcels reaching their destination on time.

Mail of all kinds is vital to the spirit of fighting men. Officers at our large military and naval stations report that the spirit and efficiency of their men receive a distinct lift when mail is distributed, and that a delay in mail service causes a decided decline in spirit with a consequent letdown in efficiency.

Rules for Christmas mailings for the fighting forces overseas include the following:

The parcel must not exceed five pounds, and must not be more than 15 inches in length or 36 inches in length and girth combined. It should be marked "Christmas parcel" so that it may be given special attention to assure its arrival before December 25.

Not more than one parcel may be mailed in any one week to the same member of the armed forces by or in behalf of the same mailer.

The parcel must be well and strongly packed, in a container of metal, wood, strong fiber board, or similar material, then wrapped in strong paper and tied with twine. The cover should be such that it can be opened readily for censorship. The contents should be packed tightly.

Perishable goods, such as fruits that may spoil, are prohibited. Intoxicants, inflammable materials such as matches or lighter fluids, poisons, and anything that may danger other mail also are prohibited. Gifts enclosed in glass should be substantially packed to avoid breakage. Sharp instruments, such as razors and knives, must have edges and points protected so that they cannot cut through the coverings and injure postal personnel or damage other packages.

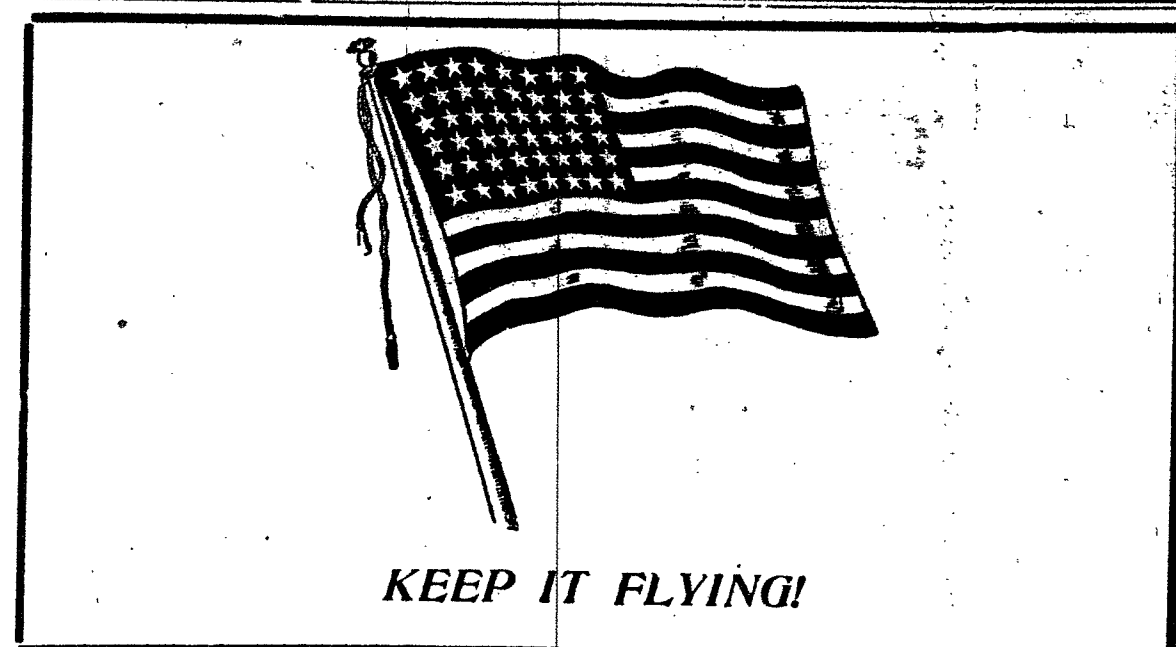

Since the armed forces are being plentifully supplied with food and clothing, the Army and Navy recommend against these as gifts.

Addresses must be written clearly and completely. In addition to the return address of the sender, a parcel for an Army man should show the name, rank, Army serial number, branch of service, organization, Army post office number, and name of post office through which the parcel is routed.

The address on a parcel for a Navy man should include the name and rank or rating of the addressee, the Naval Unit to which he is assigned and the Navy number assigned thereto, or the name of his ship, and the fleet post office through which the parcel is routed.

LET'S GO OVER THE TOP

SEPTEMBER 9th marks the time for the opening of the great war bond drive in the history of this nation. \$15,000,000,000 must be raised to meet the nation's quota. Mississippi has to raise \$55,000,000. Hancock County's part is \$342,000.00.

At the outset it strikes one that this is quite an enormous amount for a county of this size to raise. However, when we get down to cold facts and figures, we find that we have a population of 11,500 people—this gives us a per capita of \$30.00 per person. Of course, this amount cannot be raised unless a concerted effort is made to do it, and unless the cooperation of many workers is had, the task will be impossible.

It will be necessary to call upon individuals throughout the county, appealing to their patriotism, showing them what a splendid investment war bonds are, and selling them on the idea that they owe it to their nation and to the boys who are fighting the battles in Europe and in the South Pacific. It is necessary for these men to have supplies and equipment to carry on the fight. The only way that this can be had is for the nation to raise the money with which to purchase these necessities.

It becomes your patriotic duty as an American citizen to contribute wherever possible to the war effort. It is impossible for every person to join the armed forces, and we who are at home have as yet to suffer any hardships, or privations. We are still living in luxury, unmindful of the hardships endured by the boys on the battle field. We need to draw a mental picture of their sufferings and then conclude how small a part we are playing by merely investing our money in war bonds.

Our government is not asking us to give our money. We are simply asked to invest in the greatest nation in the world. As good American citizens we cannot fail to do this. We cannot say to our boys "We are not willing to put up our money for you to carry on the fight."

Let us start on the morning of the 9th of September, and not quit until we have raised the Hancock County quota. We should not put off and hope that it might be raised by September 30th, but let us put forth every effort to raise this amount as soon as possible. If we will only stop to analyze the situation and figure the amount that has to be invested by each individual, we can readily see that it is not an impossibility.

Many workers will be needed, and if you are called upon by your county committee to assist, do so, and when the drive is over, may it be said that we have again gone over the top, and that we are backing our boys to the limit.

TEST OF PATRIOTISM

THE curtailment of driving which goes into effect today with reduction of the value of gasoline coupons will test to a minor degree the patriotism of the people in this section of the nation. The reduction will affect to a great degree all citizens equally, but many citizens in various communities will believe that the greater restriction will not apply to them and they will consider themselves above the restriction and therefore justified in using any means to obtain more gas than those conscientious citizens who feel that they should abide by the regulations. We have heard the usual rumors—the type of thing that helps undermine public morale—of means which will be used to evade the new restriction.

One person told us recently in all seriousness that he had heard that a local rationing board in a nearby city plans to issue wholesale "B" books to all "A" card holders who want them in an effort to give gas to anyone that wants it. Another person boasted that he did not expect the new restriction to have any effect on him because he could always get as much gas as he wanted through the black market. We cannot help wondering how widespread such attitudes really are. If they are fairly common over the section, we are a most unpatriotic bunch of people who will have to learn much before we have won a total war.

The worst aspect of this attitude toward the new regulation is that it is prompted by a disbelief in the competency and the judgment of our public officials in charge of the rationing of gasoline. For some reason there seems to be a very popular belief that we have in the nation as much gas as we need, that the whole program of restriction of gas in this section is foolish, prompted by insincerity or misunderstanding on the part of our public officials. People who hold this view and who encourage it are playing into the hands of Hitler, who would like nothing more than to see the American people lose confidence in their appointed leaders. To believe that one is above the laws of the majority and that one's own ease and comfort come before the welfare of the whole community is to believe in a type of special privilege that can destroy the democratic process. We sincerely hope that the citizens of Mississippi will accept the new gasoline restriction with the grace of true patriotism that recognizes the necessity of abnegation in a time of crisis.—Editorial Appearing in Tupelo Daily Journal, August 16, 1943.

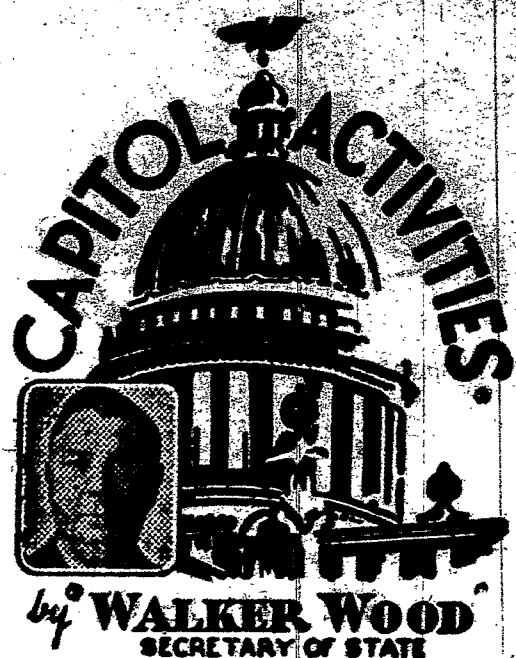

BOMB, BURN AND RUTHLESSLY DESTROY

IT will be some weeks, or maybe months, before we will be in a position to know the decisions reached by President Roosevelt and Prime Minister Churchill at Quebec.

The general nature of their deliberations is made plain by Brendan Bracken, British Minister of Information, who says they are designed "to bomb and burn and ruthlessly destroy in every way available to us, the people responsible for this war."

This is a blunt statement, without details, but it pictures the general purpose of the conference and the atmosphere surrounding its deliberations.

The British Information chief predicted a "hard war and a long war," but made it clear that the British Empire will throw its full strength against Japan. "The Allies," he said, "will inflict most exemplary punishment among the Japanese."

The primaries are over and all state and county officers for the ensuing year have been nominated. They must now go through the form of being elected in the General Election on November 2nd, in which election there will be no opposition to the nominees of the Democratic primaries. In the November election there will be at least one contest and that in the southern district for Highway Commissioner on account of the death of Hiram Patterson after he had received the nomination. In that particular contest the election will go to the candidate receiving the highest vote, whether it be a majority or a simple plurality, and candidates will have to file in each county a petition signed by 50 qualified electors, this being required where there is no party nomination.

State Nominees.

Those selected to fill the state and state-district offices for the next four years are: Governor, Thos. L. Bailey, Meridian; Lieutenant Governor, Fielding L. Wright, Rolling Fork; Secretary of State, Walker Wood; Winona; Attorney General, Greew L. Rice, Charleston; State Tax Collector, Carl N. The Senate will elect a President, Pro Tem from among its members and a Secretary, not a member of the Senate, and such other officers as the body requires. The House will elect a Speaker, one of its members, and a clerk, who will not be a member of the House. These officers will be elected on the first day of the session unless a deadlock should prolong the contest into the second day. Gov. Roebuck Chairman.

Sidney T. Roebuck, State Highway Commissioner for the first district, nominated in the first primary for another four year term, was named as chairman of the commission at a meeting last week. South Economic Problems.

Thomas L. Bailey who will serve for the next four years as Governor of the state is a native of Mississippi and has spent his entire life in the state. He was born in Webster County, but has spent the greater part of his mature years in Meridian where as a young man he

ORTIE THEATER SUNDAY AND MONDAY DOROTHY LAMOUR AND BOB HOPE

In "They Got Me Covered"—Love, Laughter And Thrills Abound in Hope-Lamour Comedy

Romance and spy-thrills in the nation's capital form the theme of Samuel Goldwyn's new comedy feature, "They Got Me Covered," which co-stars Bob Hope and Dorothy Lamour.

Designed strictly for laughing purposes, the film presents Hope as an erratic foreign correspondent for a big news syndicate. Miss Lamour as the manager of the syndicate's Washington bureau and the girl friend of the correspondent.

When he is fired for miffing a big story, the newsman goes to Washington for consolation, soon finds he is on the trail of the biggest story yet in this country, and how it operates. On trying to get the tale exclusively, however, he learns that the Axis leaders know of the threatened exposure and are doing everything in their power to stop it.

Everything in this case, includes kidnapping, murder, drugging and a ion Martin, Donald Meek and Philip Ahn have the principal supporting hero such a ridiculous figure in the roles, along with Lenore Aubert, eyes of the world that no one will believe his spy story if he does give it out. The results is an usually Axis ring. David Butler directed the fast-paced and exciting piece of film production.

"ACTION IN THE NORTH ATLANTIC" AT A. & G. SUNDAY AND MONDAY

Timely Saga of Merchant Marine

Vigorous, forceful and inspired, "Action in the North Atlantic" which will be at the A. & G. Theater this Sunday and Monday, tells the timely and glorious saga of the men of the United States Merchant Marine. Thanks to the Warner Bros., they are no longer the "unsung heroes" of the war, never have Hollywood's Kleig lights shone on a group of men more deserving of recognition and praise.

These are the men who make it possible to "hit the enemy wherever he can be found" by delivering the needed oil, munitions and supplies through sub-infested seas. The story deserves and receives a strong cast headed by Humphrey Bogart, Raymond Massey, Allan Hale, Julie Bishop and Ruth Gordon.

Tanker Torpedoed

We meet the men first on a tanker, heavy with its cargo of high-octane gasoline, plodding cautiously through a thick Atlantic fog. The terrifying crash of a torpedo launches them into an inferno of flaming oil that pursues them even on the surface of the sea. The undersea foe

comes to the surface to ram and sink the survivor's lifeboat. It is the kind of wanton injury the survivors of the crew do not forget.

Thus, when they are rescued and back in New York they are ready to leave the safety and pleasures of land to go back to danger on the next ship out. This trip on the "Sea Witch" is in a convoy bound for Murnansk, groping through the fog, storms and ice-fields of North Atlantic waters and crawling the gauntlet of lurking subs and plodding into the range of Nazi bombers.

The adventures of the "Sea Witch" as it splits away from the convoy are a swift succession by the outstanding seamanship of Captain Jarvis (Raymond Massey) and the daring ruse by which his first mate Joe Rossi (Humphrey Bogart) lures an attacking U-boat to the surface and rams it to pay off an old score.

The men are presented boldly and robustly, without gilding or glamour, the ship's crew. Humphrey Bogart emerges as a competent and august assignment of first mate, turning in a strong, memorable performance. Raymond Massey measures his role capably as Captain Jarvis and Allan Hale is tough and hearty as he seaman with remarkable proclivity for woman trouble. In a thoroughly competent cast, Director Lloyd Ba-

3RD WAR LOAN DRIVE —FOR INVASION

Put a circle around the date—Thursday, September 9th. For that's the day the 3rd War Loan Drive starts.

On that day, you will be asked to go the limit to back our valiant fighting men. You will be asked to do your share in the greatest invasion the world has ever seen. Answer your country's roll call!

Your part is to back this invasion by investing in at least one EXTRA \$100 War

Bond in September. That's in addition to your regular War Bond purchases. Invest more than \$100—a lot more—if you possibly can.

The job is big. Everyone must do his full share if we are to put this drive over the top.

War Bonds are the safest investment in the world. For your own sake, for your Country's sake, put every spare dime and dollar in War Bonds during the 3rd War Loan Drive.

WARRATION BOARD COLUMN

Beginning September 6, Mississippi housewives will be able to check the prices charged by their grocers on some 325 important food items against an official list of top legal prices expressed in dollars-and-cents terms, according to an announcement from the Jackson District OPA office, released through A. H. Gregory, Community Service Member of Local War Price and Rationing Board No. 23, at Bay St. Louis.

Specific maximum prices are established by Jackson District Order No. 1, issued August 30 and effective September 6, for all Group 1 and Group 2 stores in the State of Mississippi. Group 1 stores are independent stores with annual sales volume of less than \$50,000. Group 2 stores are independent with a volume of \$50,000 to \$250,000. Each store is required to display a sign furnished by OPA showing the group to which it belongs.

These two groups of stores covered by the new order constitute 99 per cent of the total number of food stores in the state. A separate order establishing maximum dollars-and-cents prices for Group 3 and Group 4 stores, which are the larger independent and non-independent stores, will be issued in the near future. For the present these stores will continue to complete their individual ceiling prices under previously issued regulations. Such stores may not under any circumstances, however, charge prices higher than the ceilings established by the new order for Group 2 stores. Group 3 and Group 4 stores located in Hinds, Rankin, Madison, Hancock, Harrison and Jackson counties will continue to observe the maximum prices established by previous community price orders issued for these areas.)

Commodities covered by the new order include baby foods, bananas, butter, cereals, cheese, coffee, canned fish, canned fruits and vegetables, flour mixers, lard, shortening,

condensed and evaporated milk, cooking and salad oils, poultry, and sugar. Printed lists showing the top legal prices on these items will be furnished to all food merchants by the local board, and Group 1 and Group 2 stores will be required to display this list in a prominent location. Copies of the printed list will also be available at the local board office for distribution to consumers.

(The complete list of prices established by the new order will be posted in each grocery store, or may be obtained at local Ration Office, Main Street.

In issuing the new order, Major W. E. Holcomb, state OPA director, said, "We believe this new system of dollars-and-cents price ceilings is the most practical and satisfactory method of price control from the standpoint of both merchants and consumers. It is a part of the national program for stabilizing the cost of living and combating the perils of inflation."

"The prices established in this new order," Major Holcomb continued, "represent merely translating into dollars-and-cents terms on a local basis the formulas for calculating ceiling prices contained in regulations previously issued by the national office. These new maximum prices will permit some stores, if they desire, to raise their prices on certain items and will reduce the prices previously charged in other cases. Their chief benefits will be that they will relieve the smaller stores of the burden of making their own calculations and that they will remove all doubt on the part of both merchants and consumers as to what the correct legal ceilings on these items are."

"Consumers are urged to obtain a copy of the new price list and to check the prices they are asked to pay against this list. Any attempted over-charge should be reported at once to the Price Panels of Local War Price and Rationing Boards. These Price Panels, composed of volunteer residents of each county, will have charge of administration of the new program. Only in the case of flagrant, wilful, or persistent violations will it be necessary to go outside the local community for enforcement action."

"Members of the local Price Panel or War Price and Rationing Board No. 3, at Bay St. Louis, are W. Scott Morrill, J. R. Scharff, C. C. Stone, H. W. LeTissier and H. T. Carr.

Bishop Jones in his opening address to the Council said "We greatly deplore the destruction of human life, the undermining of civilization, the vast expenditure of money caused by the greatest war in the world's history." In conclusion he predicted a total victory for the Allies and the establishment of a permanent peace in which all peoples of the world will share.

Others on the program were Dr. N. F. Forsyth of Nashville, Tenn., Associate secretary, division of the local Church, Board of Education who spoke on "Forward with Christ"; the great need for Negro nurses now as well as during the post war period for service to men in the armed forces as well as the general needs of the civilian population was stressed by Albert W. What You Buy With WAR BONDS

Stick Bay

In this war our wounded fighting men have a greater chance for recovery than in any previous conflict because of the medical aids and services that have been developed by the War and Navy Departments.

One of these aids is the Hospital Transport Plane service that has been bringing our wounded back from Africa.

Your increased and continued purchase of War Bonds is required to help the Treasury Department finance this hospital transport service. "Back the attack with War Bonds."

uniting the world into one brotherhood after the war. Dr. Karl E. Downs, president Sam Houston College spoke on "The Church's Program of Higher Institutional Education in War-time Education for Marriage for Family Life" and "The Church Plans for Better Health" were discussed by Mrs. Delbert Mann, state director Planned Parenthood Federation of Tennessee. Rev. L. B. Loud, district superintendent, San Antonio, Texas, spoke on the function of the church in modern life.

Resolutions were passed by the council expressing appreciation for the founding of Gulfside by Bishop R. E. Jones. Regrets were expressed for the retirement of Bishop Jones which will become effective at the Central Jurisdiction Conference to be held in May 1944.

The council also approved the continuation of the New Orleans Area Council, the Leadership Training School for Women, the Young People's Institute, the Young Adult Assembly, the School of Ministerial training, the Bible Training School, the Interdenominational Ministerial Council and other projects that may be set up. Requests were also made that in the re-arrangements there will be a place made for Bishop Jones in the Leadership and Promotion of Gulfside and its many activities.

On the Sunday program the church's place now and at the peace table was partly the theme of Bishop Jones' address. He stated that the church should assert itself now and at the peace table to help suggest terms of peace that will make for political, economic, and social justice for all people.

Dr. J. L. Farmer, Washington, D. C., in discussing the post war program on Sunday said that the Negro was whole heartedly supporting the total war program in furnishing manpower and contributing to the Red Cross and over seas funds.

The Area Council sermon was delivered by Dr. Rollin H. Walker, of Delaware, Ohio; the evening address to the young people was delivered by Dr. R. N. Brooks, New Orleans,

From where I sit...

by Joe Marsh

Charlie Jenkins writes me from down at camp:

"Dear Joe: Somethin' mighty swell happened to me on my last day's leave. I'm standin' on the corner, not knowin' anybody in town, when a stranger says 'hello, soldier—how'd you like a chicken dinner at home with me and the wife?'"

"Well, it turns out they were the kind of folks who couldn't do enough to help out soldiers. They'd invited two other fellows and just as soon as we're

Introduced the lady brings us a glass of beer before dinner."

"We had a fine dinner, talked till ten... Honest, Joe, I'll never forget their hospitality. Makes me feel good fighting for people like that."

Thought you might like to hear what kind o' fellows we got in this army of ours, and how they like to enjoy themselves when they get a chance to.

Proclamation

TO THE PEOPLE OF THE UNITED STATES

Proclamation

RECOGNIZING THE FACT that in carrying the war into enemy territory, we shall need greater amounts of money than any nation has ever asked from its citizens in all history, I, FRANKLIN D. ROOSEVELT, President of the United States of America, do officially proclaim that on Thursday, the ninth of September, 1943, the Third War Loan shall be launched.

As Commander-in-Chief, I hereby invoke every citizen to give all possible aid and support to this Third War Loan drive, not only so that our financial goal may be reached, but to encourage and inspire those of our husbands and fathers and sons who are under fire on a dozen fronts all over the world. It is my earnest hope that every American will realize that in buying War Bonds in this Third War Loan he has an opportunity to express voluntarily and under the guidance of his conscience, the extent to which he will "back the attack."

The American people supported well the first and second War Loan drives and in fact did even more than was asked of them. Our need for money now is greater than ever, and will continue to grow until the very day that Victory is won; so we must ask far more sacrifice, far more cooperation than ever before.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the City of Washington, this twenty-sixth day of July, in the year of our Lord nineteen hundred and forty-three, and of the Independence [SEAL] of the United States of America the one hundred and sixty-eighth.

By the President:

CORDELL HULL

Secretary of State.
